

Navidad creates custom nativity for the iconic Trinity Church's All Saints Chapel in New York City.

The culmination of our creative work in 2018 was the honor of installing a custom nativity titled 'The Inn & Stable' in the All Saints Chapel at Trinity Church Wall Street in Manhattan, established in 1697. Working with Scott Smith, Head Sacristan & Father Bruce W. B. Jenneker, Director of Liturgy, we developed a presentation that reflected the austerity of that first stable for a homeless Holy Family. Carved wood figures, created in the studios of Ulrich Perathoner in the Italian Alps, were custom painted to reflect a rich ethnic diversity. The presentation, approximately 77" long and 25" deep, is encased in a protective, removable acrylic museum cover on top of two architectural columns. Adjustable LED lighting adds a sense of drama in front of the chapel's intricately carved rood screen.

Tori Woodill, Feature Reporter for CBS3 Philadelphia television, explores the passion for nativity design at Navidad's Sanctuary Atelier.

CBS3 News Philadelphia joined us in the studio in December for filming a feature segment on Navidad's unique nativity designs. Feature reporter Tori Woodier explored the development of the custom nativity under construction for Trinity Church, as well as discovering the other designs on display. The segment ran several times on CBS reaching thousands in the Delaware and Lehigh Valleys.
